EN At Tommee Tippee we know that the correct room temperature is vital for creating a safe sleeping environment for a baby, health professionals recommend 16-20°C.

The Groegg is a colour changing digital room thermometer, it glows and changes colour to show you the temperature.

Blue ☹️	Yellow 😊	Orange	Red ☹️
Too cold	Recommended	Warm	Too warm
Under 16°C (Under 61°F)	16-20°C (61-67°F)	20-24°C (68-75°F)	Over 24°C (Over 75°F)

The accuracy of temperature range is + or - 1°C (2°F).

Insert one end of the power lead into the Groegg and the other end of the lead (usb connector) into any standard USB charger (120-240V).

- Do not place over or very close to a radiator, in direct sunlight or by an open window.
- Keep out of reach of children. Ensure that the power lead is not able to be reached or pulled by a toddler.

Always remember to check your baby regularly to make sure he or she is not too hot or cold. If in any doubt, please consult your health professional.

Use the table below to help choose the level of bedding and clothing for your baby.

	Blue ☹️ Too cold	Yellow 😊 Recommended	Orange Warm	Red ☹️ Too warm
Room temperature	Increase room temperature if possible	Maintain room temperature	Decrease room temperature if possible	Decrease room temperature if possible
Bedding Grobag	3.5 tog or 2.5 tog Grobag Baby Sleep Bag	2.5 or 1.0 tog Grobag Baby Sleep Bag	1.0 tog Grobag Baby Sleep Bag	0.5 tog Grobag Baby Sleep Bag
Clothing	Long-sleeved bodysuit / sleepsuit / pyjamas	Bodysuit / sleepsuit	Bodysuit	Short-sleeved bodysuit / nappy
Bedding Sheet	Sheet and 3 lightweight blankets	Sheet and 2 lightweight blankets	Sheet and 1 lightweight blanket	Sheet only or no sheet
Clothing	Nappy, vest and sleepsuit	Nappy, vest and sleepsuit	Nappy and vest	Nappy and vest

Technical Information

Connect your Groegg lead to a standard USB charger 120-240V, never connect directly to the main supply.

Voltage required 5V

Current Consumption 500mA

Operating temperature range 0-50 degrees (32-140°F)

The Groegg contains sensitive electronics. It is necessary for the electronics to become stabilised after power up to attain accurate temperature readings. Avoid switching the power on and off repeatedly.

If the unit malfunctions remove the power and allow the unit to stand for 5 minutes before re-applying power.

Information on the disposal for Waste Electrical & Electronic Equipment (WEEE)

This symbol on the products and accompanying documents means that used electrical and electronic products should not be mixed with general household waste. For proper disposal for treatment, recovery and recycling, please take these products to designated collection points where they will be accepted on a free of charge basis. In some countries you may be able to return your products to your local retailer upon the purchase of a new product.

Disposing of this product correctly will help you save valuable resources and prevent any possible effects on human health and the environment, which could otherwise arise from inappropriate waste handling. Please contact your local authority for further details of your nearest collection point for WEEE.

Penalties may be applicable for the incorrect disposal of this product in accordance with national legislation.

Product Ref No: 491359. Made in China.
